Reference: Your Letter dated October 19, 2021 BNC#: 21S1493H15210A1 which was received on October 24, 2021

Dear Sir/Madam,

My September ending balance was \$2,298.94, according to the bank statement (I am enclosing a copy). I wrote a check to Mathew Abraham worth \$550.00, on September 12th, 2021. (Check no. 768 is cashed on October 1st, 2021). A delay of three weeks so the balance limit increased (attaching a copy of the check leaf and the statement. In October 2021 the statement balance was \$1,194.98. The information about Acuity of the consumer report may be false. My spouse and I do not own any properties or land in our name.

My DOB is 2/8/1939. I am currently 82 years old, and my spouse DOB is 12/18/1942. She is going to be 79 years old. We both are not blind or disabled but have various health issues.

1. 15 years prior I had a stent implanted in my heart. This procedure was done at UPenn hospital.
2. One of my heart valves was implanted on 10/4/2018, also at UPenn hospital
3. My heart was electrically shocked in the Abington hospital.
4. On April 23, 2021, I received a pacemaker in the heart at Abington hospital. (For proof, I am sending an ID card and copy of bill)
5. I don't possess a driver's license, and do not have a car
6. We are not going to grocery stores or banks. We are dependent upon others in the household.

7. I have difficulty with vision, and have blurry vision.
8. I have knee problems, due to arthritis. I am using a knee cap, and require a walking stick in the house.
9. I have difficulty with balance and experience dizziness.
10. I also have memory loss, and forget to take my medicine.
11. I do not know how to use a computer, and do not have an internet connection.
12. My spouse also has knee problems, due to loss of bone, and had an operation in Abington Hospital. She also uses a walking stick. For the proof, I am sending a NovaCare Rehabilitation Bill, and a copy of their letter.

Due to the above reasons, I am feeling disabled.

13. For my status of residency, I am sending a copy of a medical bill, and a copy of my spouse, Elizabeth Mathai's, medical bill as well.
14. For the status of our citizenship, we're sending a copy of both mine and my spouse's citizenship papers.
15. My monthly social security income is \$392.00. The social security income of my spouse is \$606.00. Our combined social security income is \$998.00
16. The resources that you count for the decision may not be accurate. Aney Abraham has a Santander Bank account, and I am only a nominee. If something happens, I can get the money. Otherwise, I cannot. I did not give my social security number to this account. I think I can withdraw my nomination.
17. For the last 18 years, I used to receive an average of \$350 per month. How can I be a partner of this account, worth \$43,590.13 ? This is only a misunderstanding.

Please kindly review the decision, according to what I have presented to you. If I am not eligible for SSI, I need medicare, medicaid, and SNAP benefits.

-Thank you

Yours faithfully, Mathai M. Mathai
